Employment History

Christie Coyle Design; Freelance Web/Graphic Designer (WordPress and Blogger themes, E-Commerce Online Stores), Web Developer, and Visual Effects Artist, 2009-present

Create web sites for clients using CMS applications like WordPress and FlyingCart.
Design every aspect of site, business cards and advertising identity. Create visual effects using Lightwave and Maya focusing on texturing, lighting and compositing.

Dr. Memory's Universe (promotional demo), Celebration, FL Modeler, Lead Texture Artist, Lead Compositor, Graphic Designer 2009-2010

Created environments and original designs for the educational demo using Maya and Photoshop. Compositing over 20 scenes for the demo using Fusion.

Magma Corps (Movie Trailer), Orlando, FL Graphic Designer, Logo Modeler, Texture Artist, 2009

Created original art concepts for logos and later developed into vector and 3D object format using Photoshop and Lightwave. I also used UV and image mapping techniques for texturing projects.

**Star Trek: New Voyages Phase II; Kitumba (Freelance), Orlando, FL
Modeler, Texture Artist, 2009**

I recreated the planet Quo'nos from reference from the older show. I painted the planet's texture in photoshop and image mapped the planet.

**Defying Gravity (Music Video), Orlando, FL
Modeler, Texture Artist, Composer, 2008**

Modeled and textured a downtown buildings and streets environment for replacement of the greenscreen background in the original footage for the video. I worked with the Art Director for the overall look of downtown textures. Once that was completed, I composited in the footage for my shots with 3D and 2D camera tracking, color correcting and rotokeying.

**Basic Matrix, Shreveport, LA
Web/Graphic Designer, 2006 – 2008**

Hired as an intern and later promoted to a permanent position as lead Designer. Researched, developed and completed all aspects of design for web interfaces, Powerpoint presentation graphics, business cards, brochure design, logos, web advertisements and animations, and tradeshow booth designs. I also assisted in the content organization of web sites using CSS and HTML.
